

A photograph of three people in a bar setting. A woman with blonde hair is leaning on a bar counter, wearing a light pink shirt, blue jeans, and a brown apron with red suspenders. Behind her, a man in a light pink shirt and brown apron looks towards the camera. To the right, another man in a light pink shirt, a dark brown vest, a dark bow tie, and dark blue trousers stands with his hands on the bar counter. The background shows a bar with shelves of glasses and warm lighting from pendant lamps.

Your Uniform and Merchandise Collection

With discounts on higher volumes, and some product MOQ (Minimum Order Quantity) as low as 20 units...

Why wouldn't you?

DECORATION OPTIONS FOR YOUR BRAND NAME

Depending on the product, we have branding options to make your brand POP.

SUPACOLOUR
If you have a multi-colour, photo or even single colour artwork, Supacolour is the answer. Supacolour provides vibrant, crisp graphics whilst being very cost effective.

EMBROIDERY
This traditional method of decorating products with high density stitching on computerised multi-head machines is a popular favourite.

SUPASUB
Provides the solution for replicating full colour artwork on hard to decorate products. It is a sublimated patch which is then sewn directly onto the product.

SUPATECH
Patch, that comes in a range of colours, which is then sewn directly onto a wide range of products.

SCREENPRINT
A technique that uses a woven mesh to support an ink-blocking stencil directly to the surface of the product. Perfect for 1 or 2 colour prints.

SUBLIMATION
A printing transfer process which uses heat sensitive sublimation inks to permanently dye synthetic fabrics producing a full-colour, bright image.

LASER ENGRAVING
Laser engraving gives your logo a clean appearance by precisely etching it onto the material's surface.

DEBOSS
This classic method allows you to leave a depression onto a material's surface. What's left behind is a clean, crisp logo you can see and feel.

Please contact us to discuss your particular requirements further.
