## WE WANT YOUR BRANDING CAMPAIGN TO SUCCEED!

Products with your logo should be relevant to your business, increase your brand value and be memorable.

Whether you are handing out giveaways at a Trade Show or connecting with your Staff and Customers – we aim to supply branded products of value to your recipients. We will target the best items for your campaign.

## Introducing Our Online Shop System

Talk to us about creating your unique shop experience.

We are able to create an ONLINE COMPANY SHOP listing your pre-selected products and approved branding requirements.

Full product specs are listed, including colours, sizing and various price points.

You will love this option so you can:

- Retain complete control over the products being purchased by your Company
- Pre-approved products allows multiple department or location access
- Allows you to set up for your procurement department to easily re-stock items with minimum fuss
- Ability to key in requirements on site.

Our shops allow best pricing, as we don't hold stock, but the ability to access contract pricing means orders are processed quickly and delivered to you as one bulk order.

## PRODUCT BRANDING

Full range of uniforms available, including: Corporate shirts, separates, polos, tees, headwear.

Complimented with our full merchandise ranges to thank your team, excite your Customers and reinforce your Brand.

## If you have an upcoming programme, talk to us about our Pop Up Shop.

- We create your Online Pop Up Shop, which expires at a set date
- We list the pre-determined items with approved branding
- You send the link to your Employees or Customers so they can: select their product/colour/sizes
- The system then aggregates the data into one sales order
- Voila! We produce the order accordingly

**We can't wait to introduce our capabilities to you. Contact us to find out more.**

## DECORATION OPTIONS FOR YOUR BRAND NAME

Depending on the product, we have branding options to make your brand POP.

**SUPACOLOUR**  
If you have a multi-colour, photo or even single colour artwork, Supacolour is the answer. Supacolour provides vibrant, crisp graphics whilst being very cost effective.

**EMBROIDERY**  
This traditional method of decorating products with high density stitching on computerised multi-head machines is a popular favourite.

**SUPASUB**  
Provides the solution for replicating full colour artwork on hard to decorate products. It is a sublimated patch which is then sewn directly onto the product.

**SUPATECH**  
Patch, that comes in a range of colours, which is then sewn directly onto a wide range of products.

**SCREENPRINT**  
A technique that uses a woven mesh to support an ink-blocking stencil directly to the surface of the product. Perfect for 1 or 2 colour prints.

**SUBLIMATION**  
A printing transfer process which uses heat sensitive sublimation inks to permanently dye synthetic fabrics producing a full-colour, bright image.

**LASER ENGRAVING**  
Laser engraving gives your logo a clean appearance by precisely etching it onto the material's surface.

**DEBOSS**  
This classic method allows you to leave a depression onto a material's surface. What's left behind is a clean, crisp logo you can see and feel.
